Dear Sir or Madam:

On August 21, 1992, we received the soil sample results and closure assessment for the subject location. After careful review of your report, it appears that no further action is warranted. However, this does not absolve you of any responsibility for contamination that may not have been detected or noted during the site assessment.

If you have any questions, please feel free to contact Thomas Moore at the letterhead address and/or telephone number.

Sincerely,

Sherri V. Knight
